EDUCATION

Elon University — Elon, NC

Expected May 2028

B.A. Computer Science & B.S. Cybersecurity

Dean's List | Presidential Scholar | Elon Innovation Grant Recipient

EXPERIENCE

Contract Software Engineer — Firestone Roofing and Restoration, *Remote*

May 2026 – Jul 2026

- Shipped production features across a 45,000+ line React, FastAPI, and Supabase CRM built for the roofing industry, working directly with the founder in a PR-based development workflow
- Built and integrated payment processing (Stripe), job scheduling, and customer communications (Twilio, SendGrid) end-to-end, from API design through deployed UI
- Translated ambiguous, non-technical feature requests into scoped, tested code shipped on a fast-moving startup timeline

Founder & Lead Developer — Quad, *Elon, NC*

Aug 2025 – Present

- Building a React Native and Supabase campus events platform, approved for App Store launch with 19 partner organizations for Fall 2026
- Architected a role-based authentication system and secure data models using AWS Lambda, DynamoDB, and S3, applying object-oriented design patterns for maintainability
- Led beta testing with 50+ students and iterated the product based on structured user feedback
- Awarded a \$2,500 Elon Innovation Grant to fund continued development; built push notifications, RSVP tracking, and event analytics dashboards

Founder & Operations Lead — Buffer Bros Mobile Detailing, *Marco Island, FL*

Jun 2024 – Present

- Built a full-stack CRM (TypeScript, Next.js, PostgreSQL) from scratch, working directly with stakeholders to scope and deliver features
- Designed and optimized the PostgreSQL schema and query layer with security best practices for a live, revenue-generating system
- Automated quoting and scheduling workflows with serverless functions and third-party APIs, cutting operational overhead by 70%
- Grew and support 100+ active clients while owning pricing strategy, operations, and customer acquisition

ADDITIONAL EXPERIENCE

Teaching Assistant, CS1 — Elon University (*Feb 2026 – Present*) Support 30+ students debugging Python and core programming concepts; work with instructors to close curriculum gaps.

Consultant — Maker Hub, Elon University (*Oct 2024 – Present*) Train students on 3D printers, laser cutters, and fabrication tools; lead orientations and maintain open-hours operations.

Content Creator — TikTok / Instagram (*Nov 2024 – Present*) Grew a content brand to 2M+ organic views over 250+ consecutive days of posting; currently under paid contract with Brainly, previously partnered with Hulu and Blackbox AI.

Treasurer — Animal Protection Alliance (*2024 – Present*) Managed organizational budgeting and operational planning.
